

Customized Inserts for Structural Steel

專用於結構鋼的客製化刀片

- Suitable for structural steel (H-Beam) machining.
- Integrated manufacturing process for carbide inserts : 3D design, powder selection, pressing, sintering, grinding, polishing and coating.
- Diversified grades based on different applications.
- 適用於結構鋼 (H 型鋼) 加工
- 鎢鋼刀片的一體化製程：
3D 設計，粉末選用，沖壓成形，燒結，研磨，拋光及塗層
- 根據不同的應用提供相對應的刀片材質
